

Sustainability Policy

III: FOOD WASTE MANAGEMENT POLICY

*The Management of the **Anissa Beach & Village Hotel**, based in Anissaras, Municipality of Hersonissos, Crete, as part of its actions to ensure the adequacy and safety of the food chain, with the aim of providing high quality services within a sustainable framework for the same and the environment, has formulated the following policy for zero food waste.*

The Hotel and its Management are committed to:

- ✓ comply with any legislative or other requirement to which its activities fall and are related to the management of waste in general and food in particular.
- ✓ identify and evaluate food waste flows in the context of its activities with the aim of reducing or even eliminating it.
- ✓ to ensure food donated or redistributed is free from risks, protecting the health of their final consumers
- ✓ seek, through the establishment of objectives, the continuous improvement of food waste resulting from its activities as well as the reduction of the Hotel's food waste.

Based on these commitments, the Hotel aims to:

- ☞ design menus and production processes that minimize food waste,
- ☞ design a methodology for presenting & serving meals that minimize food waste,
- ☞ promote the donation of food that is safe for consumption to socially sensitive groups in collaboration with social partners,
- ☞ investigate the possibilities of diverting food waste to other processing units besides landfills,
- ☞ apply appropriate circular economy practices in the above actions,
- ☞ inform all the bodies with which it cooperates and/or associates about the actions carried out by the company with the aim of raising their awareness and participation,
- ☞ train and raise awareness of its staff in order to actively participate in the food waste reduction system,
- ☞ inform customers about actions aimed at encouraging their active participation.

The above guiding objectives of our policy are achieved through the Food Waste Management System by developing specific and measurable objectives, regularly controlling flows, controlling the performance of interventions, inspecting the performance of the System and reviewing its objectives with in order to upgrade them.

Staff at all levels of the business are aware of the Policy of the Company and is obliged to contribute to its Implementation.

The Management of the Company is committed to support the implementation of the Policy..
